FIRST EDITION OF THE
BUSWORLD ACADEMY CONGRESS IN SOUTH EAST ASIA
“MAKING BUS TRANSPORT SYSTEMS ATTRACTIVE, EFFICIENT AND AFFORDABLE IN SOUTH EAST ASIA”
AT THE OCCASION OF BUSWORLD SOUTH EAST ASIA, 20-22 MARCH 2019, JAKARTA, INDONESIA | JI-EXPO HAL B3
Dear Guests at the Busworld Academy,

It is my honor to welcome you at this first edition of the Busworld Academy South East Asia. Since evolutions in mobility in this part of the world are moving even faster than in most other regions, the Busworld Academy is happy to organize a platform for exchange of knowledge and insights on all aspects of the future role for bus- and coach services in the entire mobility of people. It is an evolution that is clearly technology driven. In the diverse editions of the Busworld Academy all over the world, and in the Busworld exhibitions, new products and possibilities to lower emissions, to increase safety and passenger comfort via digitalization and so many others have been discussed and shown to the public.

A major challenge today is to implement these technological innovations in the economic and sociological reality of today’s private and public bus companies, and of the authorities involved in organizing urban, interurban and long distance people’s mobility, in which several modes of transport are complementary to each other. Also these management aspects are on the agenda of the Busworld Academy.

And last but not least, due to the evolution towards low and zero emission transport, digitalization and the multimodal approach of passenger transport, we have noticed a significant increase of the number of stakeholders in the mobility debate: energy suppliers and distributors, ICT companies and services for first and last mile transfers are welcomed in the ecosystem of bus- and coach operators. We will need to get to know these new colleagues, and to collaborate. Many reasons, dear friends, to welcome you all at this Busworld Academy platform, where operators and manufacturers, public and private sector and several knowledge institutions can meet and share ideas.

I wish you a very interesting conference

Stefan Meersseman,
President of the Busworld Academy
Throughout their existence, Busworld and the Busworld Academy have been a focal point for people who want to find all kinds of information on the many aspects of the bus and coach industry. Using our worldwide network of exhibitors, operators, academics, journalists, engineers and other contacts, we have always been able to point people in the right direction.

The Busworld Academy has three main objectives, mainly to acquire, bundle and share bus and coach related knowledge about all aspects of the industry, including technological developments to enhance sustainable mobility, legislation, markets and more specialised topics, such as coach tourism. These topics can be categorised in three main fields: Safety, Sustainability and Comfort.

**Acquire** means that we will look for all existing knowledge, studies, projects and proposals. A lot of research is being done, but some of it is not communicated well enough. On top of this, we need to motivate schools, colleges and universities to undertake new research with suitable qualified partners, especially when there is need for extra knowledge in a certain area.

**Bundle** means making all this information, both existing and new, “findable” or retrievable.

**Share** means making this knowledge available for other parties to support bus and coach development worldwide through the Busworld communication channels and through the participation of Busworld Academy Expert Members in seminars, congresses and other events where the right knowledge can and will make the difference.

**Knowledge** in the Busworld Academy will be organised in four main categories:

1. **Technological developments**: the research and development departments of the bus and coach industry and other related industries; academics, engineers, experts in various fields, and students. This will concentrate on important topics like safety, sustainable mobility (weight of vehicles, mobility, alternative energy...) and the availability of funding for research.

2. **Legislation**: the construction and use of buses and coaches; emissions legislation; Bus Rapid Transit and school buses; import and export regulations. This will have links with legal authorities and trade associations like IRU and UITP.

3. **Market information**: this will describe the bus and coach business per region, especially those where Busworld is active. We will collate all available statistics and market research. This information will be important for people involved in marketing, product planning, aftersales, and for journalists.

4. **Specialised topics** such as Coach Tourism and Niche Markets
# PROGRAMME

Making Bus Transport Systems Attractive, Efficient and Affordable in South East Asia

## Day 1

(Wednesday, 20th March 2019)

### Inaugural Session- Opening Plenary

11:30 – 13:00

**11:30 hours** Welcome Address: Mr. Jan Deman, Director, Busworld Academy

**11:35 hours** Address: Mr. Jerome Pourbaix, Senior Director - Global Growth, UITP, Brussels

**11:40 hours** Address: Mr. Sommy Lumadjeng, Chairman ASKARINDO

**11:45 hours** Address: Mr. Bhushan Tuladhar, UN-Habitat

**11:55 hours** Address: Dr. Bernadia Tjandradewi, Secretary General, UCLG ASPAC

**12:00 hours** Address by the Guest of Honour: Ms. Nathalie Surmont, Trade & Investment Commissioner Indonesia and East Timor, Embassy of Belgium

**12:10 hours** Key-Note Address: “Efficient and affordable bus system towards rural-urban connectivity ~ Implications toward SDGs” - Mr. C. R. C. Mohanty, Environment Programme Coordinator, United Nations Centre for Regional Development (UNCRD), Japan

**12:40 hours** Inaugural Address: Mr. Ahmad Yani, Director of Road Transport.

**12:55 hours** Vote of thanks: Mr. Lesani, President, IPOMI

13:00-14:00 Networking lunch for invited guests

**CEOs Conclave / Round Table**

**Theme - Futuristic Transportation Solutions for South East Asia – Shaping Tomorrow’s Public Transport in ASEAN countries**

**Keynotes:**

1. “Role of BRT in Mass Transport Integration: Jakarta Case” - Mr. Agung Wicaksono, President Director, Transjakarta
2. “Enhancing Bus Ridership through Integration and Connectivity” - Dr. Gyeng Chul KIM, Special Advisor UCLG ASPAC/Former President of KOTI
3. “The Excellence of MWASALAT Services”, Mr. Ahmed Al Bulushi, CEO, Oman National Transport Company
4. “Futuristic Transportation Solutions for SE Asia - Mr. Akash Passey, Senior Vice President, Volvo” - Mr. Akash Passey, Senior Vice President VOLVO
5. “An outlook on future transport solutions” - Mr. Christoph Stemmer, Vice President of Sales, Marketing and CSP Mercedes-Benz Commercial Vehicles – South East Asia

**Panelists:**

- Ms. Silpa Paul, Industry Analyst-Commercial Vehicles, Frost & Sullivan
- Mr. Jung, Bong-Soo, JIAT (Jeonbuk Institute of Automotive Convergence Technology)
- Mr. Prasanna Padwardhan, President, Bus Operators Confederation of India (BOCI)
- Mr. Akash Passey, Volvo Bus Manufacturers
- Mr. Christoph Stemmer, Vice President of Sales, Marketing and CSP Mercedes-Benz Commercial Vehicles – South East Asia
- Mr. Ahmed Al Bulushi, CEO, Oman National Transport Company

**Chair & Session Moderator:** Mr. Jan Deman, Busworld Academy

**Rapporteur:** Ms. Septina Setyaningrum, Transport Program Coordinator UCLG ASPAC

| 10:30 hours - 10:45 hours | Networking Tea/Coffee break |
### 10:45 – 12:00
**TECHNICAL SESSION 2**  
**PLENARY**

**Creating Uniform Regulatory and Policy Framework for ease of doing business including:**

1. **Safety and traffic management**
2. **Emission and free fossil fuel energy**

**Keynotes:**

1. “Implementation of safety and traffic management measures” - Mr. Wolfgang Fleischer, Austrian Institute of Technology, Vienna
2. “Fire Safety regulations and certification systems of buses and coaches” - Mr. Fredrik Rosen, Business Manager, Dafo Vehicle Fire Protection AB
3. “Vision: Zero Death, Aiming for zero casualty from road traffic crashes” – Dr. Gyeng Chul Kim, Special Advisor UCLG ASPAC / Former President of KOTI

**Panelists:**

- Mr. Anthony Steven Hambali, IPOMI
- Mr. Aji Ronaldo, Head of Subdivision for Road Transport, Transportation Ministry of Indonesia
- Mr. Ahmed Al Bulushi, CEO, Oman National Transport Company
- Mr. A. Afzal, Chairman of AB Business Enterprises and General Secretary, Bus Operators Confederation of India (BOCI)

**Chair and Moderator:** Dr. Kulwant Singh, Advisor, Busworld Academy

**Rapporteur:** Mr. Andrew Cornwall, Managing Director, Ventura Bus Group.

### 12:00 – 13:15
**TECHNICAL SESSION 3**  
**PLENARY**

**Development of Mass Transportation, BRT Systems and Supporting Infrastructure.**

**Keynotes:**

1. “Public Transport Alternative Analysis: Choosing what suits the context” - Mr. Manfred Hermann Breihaupt, Senior Transport Advisor GIZ and Freelance Consultant, Germany
2. “Development of road-based public transport in Indonesian cities” - Dr. Yoga Adiwinarto, Director, ITDP, Jakarta
3. “Indonesia Case: Integration Mode of Mass Transportation” - Mr. Agung Wicaksono, President Director, Transjakarta

**Panelists:**

- Mr. Fleischer Wolfgang, Austrian Institute of Technology, Vienna
- Mr. Jung, Bong-Soo JIAT

**Chair:** Ir. Karlo, Manik, Director, Greater Jakarta Transport Authority under MoT

**Rapporteur:** Ms. Sukma Larastiti, Founder, Transportologi.

SPEAKERS

OPENING SESSION

Mr. Jan Deman, Director Busworld Academy

Jan Deman has been working in the bus- and coach sector since 2007. In 2011 he became the director for the Flemish federation for bus- and coach companies (BAAV). He is the first director of the Busworld Foundation, which is the holding company over the Busworld Academy. Both positions allow to experience the daily needs of the operators as well as the manufacturers, and to detect the needs from public authorities and from private travellers.

Current projects focus on safety, sustainability and comfort matters, the development of niche markets and the improvement of the image of the sector.

Mr. Jerome Pourbaix, Director Regional Offices & Services, UITP, Brussels, Belgium

Jerome Pourbaix is Director of Regional Offices & Services at the International Association of Public Transport (UITP). He leads its international advocacy activities, currently focusing on the economic case for public transport and the future role of public transport in cities. Jerome also supervises UITP’s urban transport data collection and analysis activities, notably the update of the Mobility in Cities Database. Previously he worked at the European Commission and the international city network Polis. He studied Sociology in Belgium and the United Kingdom.

Mr. Sommy Lumadjeng, Chairman, Askarindo

EDUCATION
1990: Master Degree of Autotechniek Engineering – The Netherlands

WORK EXPERIENCE
2008 – now : PT Mekar Armada Jaya – Sales & Marketing Director
2004 – 2008 : PT. Kia Mobil Indonesia – Marketing Deputy Director
1991 – 2000: PT Astra Daihatsu motor – Marketing Division Head

Mr. Bhushan Tudular, Regional Advisor South Asia, UN-Habitat

Bhushan Tuladhar is Regional Technical Advisor-South Asia for UN-Habitat’s Urban Basic Services Branch. He has a Masters in Environmental Engineering from Cornell University, USA and 25 years of experience of working on urban environmental issues. He initially worked as a Research Engineer at the Institute of Local Self-Reliance in Washington DC and as a Senior Programme Officer IUCN Nepal. He then served as the Head of Environment Department and a member of the City Planning Commission at Kathmandu Metropolitan City. He has also served as the Executive Director of NGOs such as Clean Energy Nepal and Environment and Public Health Organization (ENPHO). He has been involved in several organizations, campaigns and committees, including the Climate Change Council headed by the Prime Minister. He is currently a Board Member of Sajha Yatayat, a public transport cooperative in Nepal.
Dr. Bernadia Irawati Tjandradewi, Secretary General, United Cities And Local Governments Asia Pacific (UCLG ASPAC)

She is the first woman Secretary General of UCLG’s regional section. She received her PhD in urban engineering from the University of Tokyo, and two master degrees in Atmospheric Physics from Nagoya University, Japan and in Public Policy from National University of Singapore. Bernadia has been working in urban development and related fields for more than 15 years. Beginning of her career she worked with JICA and afterward she was with CITYNET in Yokohama. She is also a visiting professor at several universities in Japan. She has written various papers and has also been a speaker at numerous events. She was appointed as a member of the Advisory Group on Gender Issues (AGGI) of UNHABITAT. Besides global and urban environmental issues, her current interests range from strategic urban planning, climate change, disaster management, and international cooperation to water management, women empowerment, and local governance.

Ms. Nathalie Surmont, Trade & Investment Commissioner Indonesia and East Timor

PROFESSIONAL BACKGROUND
- Flanders Investment & Trade, Awex (until aug 2018) and Hub Brussels – Jakarta office, Embassy of Belgium, Since 1st of March 2012 – now, Trade & Investment Commissioner for Indonesia and Timor Leste
- Flanders Investment & Trade – Bangkok Office, Embassy of Belgium, Trade Commissioner/Commercial Counsellor in Bangkok from 1998 to 2005, Jurisdiction Thailand, Cambodia, Myanmar, Vietnam, Bangladesh, South East Asia Coordinator since June 2002 (ASEAN countries)
- Brussels Capital Region – Malmo Office (Consulate of Belgium), Trade Commissioner in Malmo, jurisdiction Sweden & Denmark, from 1996 to 1998
- EMI (music company), Accountant, Brussels
- Mc Donalds (fast food company), cash and account manager, Brussels
- NMPP- Hachette (editing house), export manager, Paris, France

ACADEMIC BACKGROUND
- Master Degree in Commercial Sciences: Major in Diplomatic, Economic an International Sciences, EHSAL, Brussels, Belgium
- Master Degree in Finance, Marketing & Management: Major in Affaires Internationales , Ecole Supérieure de Commerce de Marseille-Provence, France

Mr. CRC Mohanty, Environment Programme Coordinator, UNCRD

Choudhury Rudra Charan Mohanty, an Indian national, is currently working as the Environment Programme Coordinator/Expert at UNCRD/UN DESA (2003~till date). His main responsibilities at UNCRD includes implementation of three major initiatives and processes at regional and global level— (i) promotion of Environmentally Sustainable Transport (EST) in Asia; (ii) promotion of 3R, resource efficiency and circular economy in Asia and the Pacific; and (iii) International Partnership on Expanding Waste Management Service of Local Authorities (IPLA) – a SDG partnership. Under these initiatives, he played significant role in establishing two high level policy forums in Asia and the Pacific (Regional EST Forum in Asia and Regional 3R Forum in Asia and the Pacific), and an International Partnership on Expanding Waste Management Service of Local Authorities (IPLA) – a SDG partnership. Prior to his UNCRD/UN DESA assignment, he worked in the United Nations Environment Programme/Regional Resource Centre for Asia and the Pacific (UNEP/RRC. AP), Thailand, from 1993 to 2003 as a Senior Programme Officer/Head of Environment Assessment and
Dr. Gyeng Chul KIM, former President of the Korea Transport Institute (KOTI, www.koti.re.kr.) His career in transport policies and management spans nearly three decades with specific interest in various modes of public transport. He conducted the Seoul Transport Reform as a Director General of Seoul Metropolitan Government for four years. The reform was demonstrated how a large and rapidly-growing city like Seoul could increase ridership and significantly relieve congestion in a short period of time by constructing a multi transport sector reform as a world best practice. He received his Ph.D. from Seoul National University. Upon completing his Ph.D., he taught graduate research courses at the University of Leeds in the UK and Kyoto University in Japan. Now he is a Transport Planning and Policy Consultant at the Department of Transportation (DOTr, www.dotr.go.ph) of the Republic of Philippines, and Special Advisor of UCLG-ASPAC.

Dr. Bernadia Irawati Tjandradewi, Secretary General, United Cities And Local Governments Asia Pacific (UCLG ASPAC)

She is the first woman Secretary General of UCLG’s regional section. She received her PhD in urban engineering from the University of Tokyo, and two master degrees in Atmospheric Physic from Nagoya University, Japan and in Public Policy from National University of Singapore. Bernadia has been working in urban development and related fields for more than 15 years. Beginning of her career she worked with JICA and afterward she was with CITYNET in Yokohama. She is also a visiting professor at several universities in Japan. She has written various papers and has also been a speaker at numerous events. She was appointed as a member of the Advisory Group on Gender Issues (AGGI) of UNHABITAT. Besides global and urban environmental issues, her current interests range from strategic urban planning, climate change, disaster management, and international cooperation to water management, women empowerment, and local governance.

Mr. Jerome Pourbaix, Director Regional Offices & Services, UITP, Brussels, Belgium

Jerome Pourbaix is Director of Regional Offices & Services at the International Association of Public Transport (UITP). He leads its international advocacy activities, currently focusing on the economic case for public transport and the future role of public transport in cities. Jerome also supervises UITP’s urban transport data collection and analysis activities, notably the update of the Mobility in Cities Database. Previously he worked at the European Commission and the international city network Polis. He studied Sociology in Belgium and the United Kingdom.
Mr. Jan Deman, Director Busworld Academy

Jan Deman has been working in the bus- and coach sector since 2007. In 2011 he became the director for the Flemish federation for bus- and coach companies (BAAV). He is the first director of the Busworld Foundation, which is the holding company over the Busworld Academy. Both positions allow to experience the daily needs of the operators as well as the manufacturers, and to detect the needs from public authorities and from private travellers.

Current projects focus on safety, sustainability and comfort matters, the development of niche markets and the improvement of the image of the sector.

Mr. Ean Sokhim, Governor of Phnom Penh City Bus Authority

Work experience
- 2014-present : Governor of Phnom Penh City Bus Authority.
- 2012-2014: Deputy Director of Administrative Department of Phnom Penh City Hall. 2007-2012: Director of Drug Treatment Center of Phnom Penh City Hall.

Study

Mr. Johary Bin Anuar, Deputy Mayor of Petaling Jaya City Council, Malaysia

Dr. Sutanto Soehodho, Deputy Governor, Jakarta/Co-chair of UCLG&UITP Mobility Champions Community

Mr. Sajib M. Mahanta, Research Associate, 3R WASTE Foundation

Mr. Sajib M. Mahanta is a Research Associate at the 3R WASTE Foundation, associate partner of WASTE Netherlands. Sajib completed his M.Sc. in Environmental Resource Management from TERI University, New Delhi. In the past he has worked in the urban services sector with organizations like The Energy and Resources Institute, IDinsight etc.
Mr. Agung Wicaksono, President Director, Transjakarta

Agung Wicaksono, Indonesia citizen, born in Surabaya on 13th December 1976. He has a vast experience in corporation, academic, and bureaucracy for seventeen years. He is well experienced in government sector as an Expert Assistant of Kepala Unit Kerja Presiden Bidang Pengawasan dan Pengendalian Pembangunan/UKP4 (2009-2014). During Kabinet Kerja era, he was appointed by Minister of ESDM (October 2014-August 2016) as the Deputy Head of Unit Pelaksana Program Pembangunan Ketenagalistrikan Nasional (UP3KN), as well as a member of Unit Pengendali Kerja (UPK) and previously as a member of Tim Reformasi Kelola Migas.

He obtained his Ph.D in International Management from Universität St. Gallen, Switzerland focusing about corporate governance of state owned enterprise (BUMN) that he wrote during his time as researcher at Institute of Southeast Asian Studies (ISEAS), Singapore (2005-2007). He obtained his master degree in production management from Technische Universität Hamburg-Harburg, Germany and continue his career at AT Kearney and Ernst & Young in Indonesia (2003-2004). A graduate of Institut Teknologi Bandung with major in Industrial Engineering in 2000 and continue to become faculty member in School of Business & Management ITB since 2008.

Agung Wicaksono became Director of Operation and Maintenance of PT MRT Jakarta since 14th October 2016 to prepare MRT operation & maintenance, and building the basis of MRT business development strategy that include NonFarebox Business (NFB) and Transit Oriented Development (TOD) until 29th October 2018 when he was appointed as President Director of PT Transportasi Jakarta.

Dr. Gyeng Chul KIM, Special Advisor UCLG ASPAC/Former President of KOTI

Dr. Gyeng Chul KIM, former President of the Korea Transport Institute (KOTI, www.koti.re.kr.) His career in transport policies and management spans nearly three decades with specific interest in various modes of public transport. He conducted the Seoul Transport Reform as a Director General of Seoul Metropolitan Government for four years. The reform was demonstrated how a large and rapidly-growing city like Seoul could increase ridership and significantly relieve congestion in a short period of time by constructing a multi transport sector reform as a world best practice. He received his Ph.D. from Seoul National University. Upon completing his Ph.D., he taught graduate research courses at the University of Leeds in the UK and Kyoto University in Japan. Now he is a Transport Planning and Policy Consultant at the Department of Transportation (DOTr, www.dotr.go.ph) of the Republic of Philippines, and Special Advisor of UCLG-ASPAC.

Mr. Ahmed Al Bulushi, CEO, Oman National Transport Company

Ahmed Al Bulushi holds a Master’s degree in Management and IT & Bachelor degree in IT from Bond University (Australia) and Higher Diploma in Accounting. He has over 21 years of experience and has held different positions during his career such as director of Financial Affairs for the Royal Court Affairs. Ahmed also holds different positions in board level, such as;

• Vice Chairman of Oman Shipping Company.
• Vice Chairman of UITP representing GCC.
• Vice Chairman of Karwa Motors.
• Board Member of Oman Logistics Association.
• Board Member of Duqm Naval Dock.
In May 2015, he was appointed as CEO of Oman National Transport Company. The company that is since engaged in a profound process of transformation to become a modern and efficient public transport operator that is committed to upgrading the public transport system in Oman under the name of ‘Mwasalat’.

Mr. Akash Passey, Senior Vice President – Business Region International Volvo Bus Corporation, Sweden

Akash Passey presently serves as Sr. Vice President – Volvo Bus Corporation. As a member of the Volvo Bus Executive Management he is responsible for performance in the International Region covering India, China, Middle East/Africa, Asia Pacific and CIS countries. Mr. Jan Deman, Director Busworld Academy

Jan Deman has been working in the bus- and coach sector since 2007. In 2011 he became the director for the Flemish federation for bus- and coach companies (BAAV). He is the first director of the Busworld Foundation, which is the holding company over the Busworld Academy. Both positions allow to experience the daily needs of the operators as well as the manufacturers, and to detect the needs from public authorities and from private travellers.

Current projects focus on safety, sustainability and comfort matters, the development of niche markets and the improvement of the image of the sector.
Ms. Septina Setyaningrum, Transport Program Coordinator, UCLG ASPAC

Mrs. Septina has an educational background in accounting and finance and currently serves as the Transport Program Coordinator for the UCLG ASPAC, the United Cities and Local Governments of Asia Pacific.

She has experience in developing urban transportation, such as: being involved in the development of Trans Batik Solo Bus and being a coordinator in monitoring the implementation of public transportation systems.

SESSION 2

Mr. Fleischer Wolfgang, Austrian Institute of Technology, Vienna

Wolfgang Fleischer is Strategy Advisor at the Center for Mobility Systems at the Austrian Institute of Technology (AIT). In his position he coordinates strategic relevant decisions regarding the development of holistic mobility solutions for the future, based on the interrelation of passenger mobility, mobility of goods, and transport infrastructure. Throughout his more than 30 years professional experience, he was working more than 15 years in designing and implementing mobility solutions with a focus on Intelligent Transportation Systems (ITS). Before joining AIT, he was responsible for the world wide strategic and technical coordination of solutions for a global ITS-provider.

Mr. Fredrik Rosen, Business Manager Dafo Vehicle Fire Protection AB

Fredrik Rosen has previously worked as Marketing Manager at RISE Research Institutes of Sweden, Department of Safety & Transport (former SP Technical Research Institute of Sweden). He has 15 years’ experience within fire resistance testing of building products and constructions as well as products for marine- and offshore applications. Over the last years Fredrik has been part of the development of the new international standard/certification system for bus engine fire suppression systems which has recently been adopted in UNECE Regulation 107. Fredrik has also been involved in development of preventive fire safety certification rules for vehicle manufacturers, operators and service centers (workshops) with regard to fire safety.

Fredrik is Business Manager with focus on the African and Middle Eastern market as well as Marketing Manager of Dafo Vehicle Fire Protection.

Dr. Gyeng Chul KIM, Special Advisor UCLG ASPAC/Former President of KOTI

Dr. Gyeng Chul KIM, former President of the Korea Transport Institute (KOTI, www.koti.re.kr) His career in transport policies and management spans nearly three decades with specific interest in various modes of public transport. He conducted the Seoul Transport Reform as a Director General of Seoul Metropolitan Government for four years. The reform was demonstrated how a large and rapidly-growing city like Seoul could increase ridership and significantly relieve congestion in a short period of time by constructing a multi transport sector reform as a world best practice. He received his Ph.D. from Seoul National University. Upon completing his Ph.D., he taught graduate research courses at the University of Leeds in the UK and Kyoto University in Japan. Now he is a Transport Planning and Policy Consultant at the Department of Transportation (DOTr, www.dotr.go.ph) of the Republic of Philippines, and Special Advisor of UCLG-ASPAC.
Mr. Anthony Steven Hambali, IPOMI

Mr. Aji Ronaldo, Head of Subdivision for Road Transport, Transportation Ministry of Indonesia

Mr. Aji Ronaldo has a specific formal education background in land transportation starting from Strata-1 (S1) to Strata-2 (S2) levels. He also has teaching experience for courses related to land transportation at the D-II level of Motor Vehicle Examiner and in short courses in land transportation for employees of the Transportation Service throughout Indonesia.
